Dear Mayor Garcetti and Ms. Sinclair,

Last Thursday there were 2 police cars and at least 6 public works trucks, one with a very large scooper in the front, that were sent to clean up the trash at Sharon and Bengal. They were there for several hours cleaning up trash and also going into the wash where homeless are living to clean trash and feces. This is a very bad health hazard causing rats and snakes to come into our neighborhood along with the drug dealing going on. I walk my dog twice a day and pass this every day on our walk around the block. Yesterday my neighbor who lives on Sharon had the hood of his car open trying to get rid of rats that had gotten inside the engine because they were eating peanut shells dumped by the homeless.

As you can see from the picture I took yesterday, it didn't take the homeless very long to make another pile of trash (3 days).

I am calling 311 to report this. Doesn't our Council representative care anything about us? I spoke to Juan Solorio this morning at the Sylmar Office and suggested that the city can put fencing where Bengal paving ends and the dirt area begins so cars will not be able to access this area. He seemed to agree with me. Maybe they could also put chain link fencing with barbed wire on top to prevent access to the Tujunga Wash.

What do you think?
